

⚡ PLEASE MAKE SURE THAT MAINS IS DISCONNECTED BEFORE PROCEEDING!

Follow the steps as illustrated below

1. Secure mounting bracket onto intended mounting surface (mounting screws not included).

2. Insert side cover plates and fixture, fasten M10 screw onto the middle of mounting bracket on each side.

3. Rotate fixture to desired angle and secure position by fastening M10 screws onto the curved slot.

4. Connect AC cables to incoming power supply. Installation complete.

Follow the steps as illustrated below for maintenance

1. Unfasten front screws to detach front cover plate and reflectors.

2. Disconnect cables attached to LED driver and unscrew bracket to remove LED driver for replacement.

3. Disconnect cables attached to LED module and unfasten screws to remove LED module for replacement.

SAFETY WARNING

- Product **MUST** be installed by a licensed electrician in accordance with local standards.
- LED lamp **MUST ONLY** be connected to supplied our constant current LED driver. It is not compatible with any other type of driver. Failure to adhere to this may damage fitting and will void warranty.
- **DO NOT COVER** lamp or driver under any circumstances.
- Ensure main supply is not energised and/or disconnected prior to installation and connected/disconnection of lamp from driver.
- This fitting must not be Megger tested or connected during any in-circuit testing.
- No user serviceable parts. Do not attempt to disassemble or repair lamp or driver.
- Do not use in flammable or explosive environments.
- Do not attempt to modify fitting or supplied wiring in any way.
- Allow suitable air flow and ventilation around the fitting.

DIMMER COMPATIBILITY DECLARATION

Our Luminaires are designed for industry and home commonly used standard phase dimmer for best lighting effect achievement and provide additional values to our customer. However, with thousands of dimmer models available in the market today, we cannot guarantee 100% compatibility. In order to avoid disappointment, our best advice is to use dimmer models that have been tested by us. The latest information of dimming compatibility will be available within our Dimmer Compatibility Card and can be obtained through our website and your local distributors. If you have any dimmer model that is not within our Dimmer Compatibility Card, please kindly contact us and send in your dimmer to get tested. We will respond to you within the shortest possible time and advise you about the compatibility to our Luminaires. We will not be responsible for all losses due to the incompatibility of the dimmer to our Luminaires. Incompatibility includes abnormal operation, i.e flicker, throb, delayed on/off, failure, narrow dimming ranges etc. and not limited to the above mentioned conditions.
