

# MINUSCULE AND VERSATILE

The new ORION 2 is a series of micro pinhole downlight designed with ELR's signature modular concept to be paired with ELR 20 series LED modules. Even with a minuscule aperture diameter of just 15mm, the ORION 2 is able to produce up to 748lm output at up to 40° beam angle with the aid of X-BEAM converging optical lens that maximises luminous efficiency.
