

Modular Concept Luminaires for Various Ceiling Heights

19 meter | 12 meter | 6 meter | 3.5meter

ELR's signature modular concept design provides the utmost versatility, with LED modules ranging from 4.5W up to 66W in power producing outputs from 350lm up to 8000lm, which can be paired with multiple choices of fixture selections to accommodate various ceiling height application conditions of up to 19m.

With LED modules available in single CCT or variable CCT and choices of LED drivers with different dimming protocols, the modular concept design allows compositions of numerous lighting solutions for various functional requirements within all kinds of spaces.

Modular Concept with Various Fixture Selections

Modular Concept with Various LED Module Selections

<p>19m ceiling height</p> <p>High Bay Series</p> <p>4046lm to 13104lm</p> <p>500 CLE 500 PLE</p>		
<p>12m ceiling height</p> <p>6-Series</p> <p>1900lm to 8000lm</p> <p>100PLE 100CLE 100CLO</p>		
<p>6m ceiling height</p> <p>4-Series</p> <p>350lm to 3000lm</p>		
<p>3.5m ceiling height</p> <p>2-Series</p> <p>419lm to 721lm</p> <p>3-Series</p> <p>350lm to 1500lm</p>		
<p>20C 20P</p> <p>COIN</p> <p>35N 35N ND+</p> <p>50N 50N ND+</p> <p>50C 50P</p> <p>100C 100P</p> <p>300P 500P 700P</p>		

Single CCT and Variable CCT

<p>ProART</p> <p>High colour rendition in Ra~95</p>		<p>WARM DIM</p> <p>Colour temperature reduces in conjunction with dimming</p>
<p>tuneWHITE</p> <p>Tuning of colour temperature with DALI DT8</p>		<p>flexiK</p> <p>Select any desired colour temperature from 1800K to 6500K</p>

Technology and Features

ATePS

Advanced Thermal Protection System

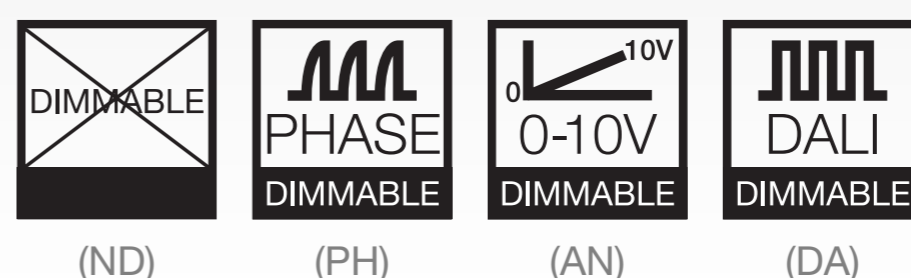

BEAM

Converging Optical Lens Maximising LOR

ComfyEYE

Low Flicker Index No Risk

Driver with Different Dimming Protocols
